

Account	
user_id	Varchar
email	Varchar
password	Varchar
is_admin	Boolean

An admin account will be able ot start a game and a non-admin account can just see stats

RA = Runs allowed
HA = hits allowed
BB(P) = Pitcher walks
SO = batter strikeouts
K = pitcher strikeouts

Player		
Foreign	team_id	Varchar
Primary	player_id	Int
	first_name	Varchar
	last_name	varchar
	AB	Int
	SO	Int
	H	Int
	homerun	Int
	triple	Int
	double	Int
	single	Int
	BB	Int
	RBI	Int
	IP	Double
	K	Int
	BB(P)	Int
	ER	Int
	RA	Int
	HA	Int

"Game " is the basics of the game: home/away team, final score, game_id, and all the "plays"

Game		
Primary	game_id	Int
Foreign	home_team_id	Varchar
Foreign	away_team_id	Varchar
	final_home_score	Int
	final_away_score	Int

Play		
Foreign	play_id	Int
Foreign	game_id	Int
	inning	Double
	home_score	Int
	away_score	Int
Foreign	pitcher_id	Int
Foreign	batter_id	Int
Foreign	first_base_player_id	Int
Foreign	second_base_player_id	Int
Foreign	third_base_player_id	Int
	balls	Int
	strikes	Int
	outs	Int
	single	Int(1 or 0)
	double	Int(1 or 0)
	triple	Int(1 or 0)
	homerun	Int(1 or 0)
	strikeout	Int(1 or 0)
	walk	Int(1 or 0)
	fielders_choice	Int(1 or 0)
	batted_out	Int(1 or 0)
	double_play	Int(1 or 0)
	triple_play	Int(1 or 0)

"Play" tracks the pre-play situation (Inning, home score, away score, batter, pitcher, player on 1st, 2nd, 3rd,, balls, strikes, outs) and also the play (single, double, triple, hr, strikeout, walk, fielder's choice, out, double play, triple play). A play starts with each pitch.
